

1) Please describe yourself with one song (what in this song describes you more – music or lyrics)

Well, I would probably choose one song. One of the closest to my heart. It is a song called Dominique by a band called GusGus. I think it is pretty known. There are a few lines of this amazing song:

**I am wired  
I am tired  
Of being someone that I am not  
Tired of showing  
Tired of going along with all my lies  
I wish that I was so strong  
And I could tell you  
That all this time I have been wrong**

As you can see, I used many words as the titles for my photo. For example: „With all my lies“ or „I have been wrong“. This piece of song really inspires me all the time. There is a YouTube link, if you want to listen to it: <http://www.youtube.com/watch?v=6LGXCEH6wwI>

2) Name one song that corresponds more with your happy mood. One you listen when you're sad.

When I am happy I always listen to happy music – I could say dance music. But I think I can find some ordinary song. I would choose: Prodigy and their unforgettable „Smack my bitch up“. This is a song that can lift me up. And when I am sad or when I feel melancholic, I always choose one song from Beverly Craven with a song called „Promise me“. It reminds me of some days that passed 5 years ago that hit my heart so hard.

3) Would be cool if you can share with me a melody, that inspires you most.

Melody? Ummm.. there are a lot of amazing sounds, voices and melodies out there. I am still so touched by a song „Please, don't go“ by a band called „Barcelona“.

4) What is most important for you in a tune – music or lyrics?

It goes hand in hand. You can't split it up. It works together or it doesn't at all. It is similar with a rainbow. If you want to see it, you have to combine rain and sun. The same works for music and lyrics.

5) If you can shoot a video for one song, what would it be?

Yeah, nice question. You know why? Many people have asked if I am involved in films because my pictures seem like movie scenes. As if they were cut from a film. They look like our own faded memories. Something that we all have lived through. My other imagination. My other dream. I would love to set my pictures in motion. I would use one static person and a moving environment around him. I can imagine that so clearly.

6) What song is playing for you now?

I am listening to a song called „There Is An Ocean That Divides“ by singer Scott Matthew. Amazing piece of art.

7) Describe me a creative part of your art process. How usually the idea of your picture comes to your mind?

I always think how it does it work. Really. I am still a little bit confused. But it is like a bolt from the blue. It is all about feelings, emotions, people, experiences. I have never studied photography, so I

don't have done it because of university – duties. I only feel that I have to express myself in this way. It is pure feelings.

8) Is it always connected with music, or you search for it later. What can inspire you.

As you can notice, I really often use some lyrics connected to my art. I find some great songs and these songs guide me through some short or longer part of my life. So, I feel how much these songs affect me. So I combine these songs with my current mood and that creates my art. That's true.
